Yu Yuan Garden

Yu Yuan is a 400 year old classical Chinese garden in the Old Town of Shanghai, not far from the Bund. Pan Yunduan spent twenty years and all his savings building it to please his parents in their old age. In the garden you can feel the harmonies between the construction, plants and human.

Shanghai Museum

As a museum of ancient Chinese art, Shanghai Museum houses a collection of 120,000 precious works of art. Its rich and high-quality collection of ancient Chinese bronze, ceramics, painting and calligraphy is specially celebrated in the world. Its unique architectural form of a round top with a square base, symbolizing the ancient Chinese philosophy that the square earth is under the round sky, is a distinguished architectural combination of traditional feature and modern spirit. The present Shanghai Museum has eleven galleries and three special temporary exhibition halls. It extends warm welcome to the visitors from all over the world.

The Bund (Waitan)

The Bund (Waitan) is one of the most recognizable architectural symbols of Shanghai. "Bund" derives from an Anglo-Indian word for an embankment along a muddy waterfront and that is what it was in the beginning when the first British company opened an office there in 1846. Located on the west bank of a bend (running north and south at this point) in the Huangpu River and just south of Suzhou Creek, the Bund became the site of some of the earliest foreign settlements after Shanghai was opened as one of five "Treaty Ports" in the Treaty of Nanjing that ended the Opium War in 1842. Because of its proximity to the Yangtze (Changjiang) River--the path into central China, Shanghai grew rapidly as the economic center of foreign interests.
