The 8th China International Consumer Goods Fair — Once you come, you will come every year!

NINGBO, CHINA, 19 March 2009--This 8th China International Consumer Goods Fair (CICGF 2009), co-sponsored by Ministry of Commerce, PRC and Zhejiang Provincial People's Government, will take place in the famous harbor city from 8-12 June 2009, in Ningbo. My friends, you are cordially invited to attend it. As we all know, renowned as one of the most important windows of opening up to the outside world in China. CICGF is the largest professional consumer goods fair in China, which ranks only second to Canton Fair among all the exhibitions sponsored by Ministry of Commerce. It is held at Ningbo International Conference & Exhibition Center in June every year. Welcome!

The CICGF is the leading Chinese trade fair for quality and branded products. Once again an impressive array of consumer goods will be on display. The products to be exhibited are wide-ranging, and include clothing and home textiles, electronic and domestic appliances, daily-use goods, furniture and office supplies, sport, travel and leisure items, gift articles, art and handiwork, in addition to fancy foods and beverages. Based on the success of last year's fair, thousands of purchasing agents from all over the world are expected to visit in 2009. the scale and standard of trade fair operation and booth decoration is very close to European trade fair standards.

There are three advantages for the fair:

Manufacturing base. Zhejiang Province, of which Ningbo is a part, is China's as well as the world's largest consumer goods manufacturing base. 70 of the exhibiting enterprises are within hours' or even minutes' driving distance, making it much easier for buyers to explore.

Excellent natural deep-water port. It is with cargo throughput ranking second both in China and in the world, and with 190 container routes to over 600 ports. All the world's 20 top container shipping companies have offices in Ningbo.

Good exhibition infrastructure and excellent service. The exhibition center now has 120,000 sq. m expo space, easy access to exhibitors' online, free on-site interpreter service, and internet service.

Although it is certain to be affected by the global financial crisis, it will still bring thousands of exhibitors and purchasers from around the world. According to Minister Li Xinhua, Vice Director for Ningbo's Foreign Trade and Economic Cooperation Bureau, "while people are reducing purchases on luxury and high-cost goods, they are still spending money on daily-used consumer goods which are essential to everyday life." Competitive prices and high-quality products that are still in demand despite global uncertainty are the two key factors that will bring visitors to the fair.

China International Software & Information Service Fair 2009

China International Software & Information Service Fair (CISIS) is the unique state-level software service fair in China, approved by State Council of the P.R.C. It will be held from June 18-21 in the northern Chinese city of Dalian, China. Dalian is recognized by global IT industry. Nearly ten years of effort, Dalian has become a destination for global software and service outsourcing, and plays an important role in global IT industry. Many business opportunities can be available on the CISIS platform.

The CISIS consists of three parts (Exhibition, Convention and Activity) and six themes (International Cooperation, Innovation, Industry Application, Talents Exchange, Capital Connection and Credit System). Also, it bears the historical tasks of undertaking the transformation of the world's emerging industries, expanding international collaboration with the Chinese software and information industries. It creates a platform for international cooperation, VIPs from overseas government departments, CEOs of World Top 500, well-known consultants and overseas IT associations taking part in the fair.

With exhibition scale of 30,000 square meters and more than 600 exhibitors, the CISIS covers all the fields in the industry and sets up a platform for brand display, latest product publication, advanced technology release and information gathering.

With larger and larger scale and level promotion of the forum, it attracts more and more attention and has become an important annual activity of the IT industry, which is the highest specifications, the most effective and influential.
