Upcoming Trade Shows and Conferences in China

In the past ten years, the economic development that China has gone through has been described as the "Economic Miracle of modern times" With a foreign reserve of over 1 trillion U.S. dollars, China is at a cross road of entering the world of developed countries. Whereas foreign companies were visiting China to "BUY" products, they are now there to "SELL" to the Chinese consumers. China now has the highest number of internet users of all countries, the most number of cell phones and is expected to surpass Japan as the second biggest market for luxury goods within the next five years. In cities like Beijing and Shanghai, an average of 1000 new car licenses are issued each day and while many country GDP's in the world are growing at a rate 2-3% a year, China is averaging over 10% a year. Needless to say, with such a back drop, business travel to China is growing at double digits. We at Peregrine Travel Group recognizes this and we serve as a leading company in bringing foreign businesses to visit China. In addition to providing business travel, we are also helping companies to attend trade shows in China to either "BUY" or "SELL" to China. Our services go beyond the typical hotel and airport transfers, we provide private cars, translators and many other business services. We can even help provide "sales booth" support at exhibitions. This is a market segment within the travel world that is growing at a very rapid rate and we would like to share this with you as our partner. We hope that you will be able to take advantage of this dynamic market. As an example, we are bringing close to 500 clients to attend the Canton trade fair in October 2008. The following are some selected trade shows and conferences that will be held in Beijing, Shanghai, Guangzhou and Xian in the next few months. For more information on how Peregrine Travel Group can support you in planning your clients' business travels to China, please visit our website: www.peregrinetravelgroup.com.
